

Dear Members of Congress:

The Water Infrastructure Network (WIN) strongly urges your support for the *Water Quality Financing Act* (H.R. 720) and the *Water Quality Investment Act* (H.R. 569) when they come up for consideration by the U.S. House of Representatives.

- ✓ The Nation faces a clean water crisis estimated by U.S. EPA at \$300-500 billion over the next 20 years.
- ✓ U.S. EPA has warned that failing to overcome this gap will erase the water quality gains made over the past 35 years under the Clean Water Act.
- ✓ H.R. 720 and H.R. 569 represent a solid step toward addressing America's clean water needs and set the stage for future sustainable funding.

VOTE YES ON H.R. 720 & H.R. 569!
